

## Perbandingan antara RAG dan base-model

Dalam hal ini untuk menguji antara kedua metode tersebut kita akan menggunakan 5 pertanyaan terkait dengan dokumen baru yang telah di upload sebelumnya. Pertanyaan yang digunakan antara lain yaitu :

1. "I want to visit Osaka. Can you recommend some hotels?"
2. "I am in Osaka. What foods would you recommend I try?"
3. "What are the recommended places to visit in Tokyo?"
4. "How much will I spend on a 3-day backpacker trip to Kyoto?"
5. "What public transportation options are available in Kyoto?"

Adapun untuk base model prompt dasar yang digunakan untuk pertanyaan yang akan diuji cobakan adalah sebagai berikut.

“””

You are an experienced travel planner.

Answer the user's question. Only answer questions about travel. If the question is not related to travel, politely decline to answer.

Question: {query}

Return ONLY the answer. Do NOT include intro or outro text.

| 5 | <p>In Kyoto, public transportation options include buses, trains, and subways. The city is served by the Kyoto Municipal Transportation Bureau, which operates an extensive bus network. Additionally, the Keihan Railway, Hankyu Railway, and JR West provide train services connecting various parts of the city and its outskirts. The Kyoto Subway system consists of two lines: the Karasuma Line and the Tozai Line, which cover many central areas. There are also bike rentals and taxis available for convenient travel.</p> | <p><b>The Ultimate Kyoto Travel Guide: The Heart of Traditional Japan</b></p> <p>Konnichiwa! Welcome to Kyoto, the cultural and historical capital of Japan. Where Osaka is known for its neon lights and street food, Kyoto will captivate you with its serene temples, majestic shrines, traditional wooden machiya houses, and refined culinary arts.</p> <p>Here is your comprehensive guide to planning an unforgettable journey through Kyoto.</p> <p><b>1.Transportation: Navigating the Ancient City</b></p> <p>Unlike Osaka or Tokyo, Kyoto relies more heavily on buses, though a combination of trains and buses is the most efficient way to get around.</p> <ul style="list-style-type: none"> <li>• <b>City Bus System:</b> Kyoto has an extensive bus network that reaches almost all major tourist spots. However, they can get very crowded during peak seasons</li> </ul> |

**Analisis:** Berdasarkan 5 pertanyaan yang sudah diuji coba, jawaban paling mencolok adalah sumber informasinya benar-benar mengunci untuk RAG berdasarkan informasi yang di-upload. Untuk kesesuaiannya memang akan tergantung ketersediaan informasi yang ada di dokumen. Sedangkan untuk base model tergantung pada prompt yang diberikan, dan jawaban yang diberikan cenderung umum atau mudah dicari tahu di internet.

Untuk tingkat halusinasi RAG saat ini berdasarkan uji coba memang masih cukup baik, tetapi karena pertanyaan yang digunakan sesuai dengan informasi yang ada di dokumen. Jika pertanyaan sudah di luar informasi maka saat dicoba untuk yang RAG akan memberikan jawaban yang tidak sesuai atau halusinasi, dan itu bisa diindikasikan dari score jawaban dari respons RAG.

Kesimpulan yang bisa diambil saat ini RAG cukup baik dalam melakukan analisis informasi yang sesuai dengan konteks dokumen, hasilnya cenderung baik bahkan bisa memberikan informasi pendukung yang detail. Sedangkan untuk base model cocok digunakan untuk mencari informasi umum tetapi untuk mencari informasi lebih dalam dibutuhkan usaha penyesuaian prompt.
